## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8-01-03 has been entered.

### ***Response to Amendment***

2. It is noted that claim 34 as presented in the amendment filed 8-01-03 contains amendments that were not appropriately indicated by bracketing or underlining. According to Applicants in the current amendment, claim 34 is recited as previously presented. However, there is no amendment of record that clearly directs the amendment of claim 34 from the language as originally presented in the paper filed 10-09-2001. Applicant's amendment does not comply with 37 CFR 1.121(c).

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

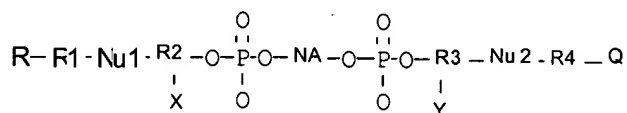

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 32-49 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant

Art Unit: 1635

art that the inventor(s), at the time the application was filed, had possession of the claimed invention. (New Matter Rejection).

5. Applicants have amended the instant claims to recite the following structure:

As support for this amendment, Applicants state that the above structure is analogous to the structure found in claim 50. However, there is no express support for this amendment in either the claims or the specification as filed. The above structure is distinct from the structure originally recited in claim 32, for example moieties X and Y did not branch off from the original structure. The only structures that branch off from the base structure recited in claim 50 are CHOL groups, and it is clear that the X and Y moieties recited in claim 32 are not limited to CHOL groups. In the original structure recited in claim 32, X and Y were incorporated into the backbone of the compounds.

Applicants are requested to remove the new matter from the claims in response to this Office Action.

### ***Response to Arguments***

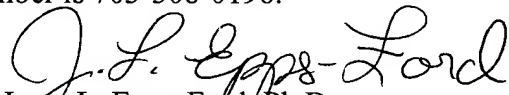

6. The rejection of claims 32-61 under 35 USC 103(a) as being obvious over Nazarenko et al. in view of Templeton, and the rejection of claims 32-62 under 35 USC 103(a) as being obvious over Meade et al. in view of Manoharan et al. and Gold et al. are withdrawn in view of Applicant's arguments.
